Experience

IT Fullstack Developer — TNHH Vintechco vintechcohcm.com

09/2024 — Present

- Develop and maintain internal web systems
- Contribute across the full cycle: design → code → deploy

☰ Selected Projects

Key License Dashboard

Solo — Full-stack + UI/UX (A-Z)

Live

Cloudflare Workers · D1 Database · JavaScript · Figma

- Designed and built the entire admin portal solo
- License management, device tracking, and risk detection
- Created a custom design system from scratch

Valorant Tweaks

Solo — Desktop App + UI/UX (A-Z)

GitHub

C# / .NET · WPF · PowerShell · Figma

- Windows performance tool for Valorant players
- System optimizer, DNS switcher, and GPU tweaks
- Riot-inspired design language, licensed via Key Dashboard

AAO Assistance

Fullstack + UI/UX + Extension Architecture

GitHub

Next.js · AI Integration · Figma · Chrome Extension

- AI academic advisor for EIU students
- Designed layered system architecture, backend, and extension flow
- Personalized study roadmaps and feedback engine
